-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 04 October 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 10 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear from the specification how the non-magnetic layer is separate from the cleaning layer. In the specification the cleaning layer is said to have a non-magnetic layer therein but not recited as a separate layer as the claim recites. The phrase 'in this order' is unclear also.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Miyoshi et al-4,701,364.

Miyoshi discloses a method of cleaning a magnetic head with a tape having a stiffness of 2 or less, a cleaning portion having carbon black and

ferromagnetic powder thereon, with a thickness of 2-7 micrometers and a roughness within the claimed range. As best understood, Miyoshi discloses the tape having the same elements as claimed, such as a non-magnetic layer within the cleaning layer (col. 3, lines 45-50). In addition, col. 4, lines 19-21, state that other layers can be provided between the support and cleaning layer.

### ***Response to Arguments***

Applicant's arguments filed 10-04-04 have been fully considered but they are not persuasive. Applicant argues that the workpiece of Miyoshi does not have trenches parallel to a sliding direction of the tape. However, the structure of the workpiece does not further limit the method of using a cleaning tape. This is not a combination claim wherein the details of the workpiece are claimed in combination with the method of using the cleaning tape. Any known workpiece, such as a magnetic head with trenches parallel to the sliding direction, could be used in this method and Miyoshi discloses using this tape with the particular claimed structure for cleaning a magnetic head.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
